## CAREER OBJECTIVE

Technology-focused B.Tech CSE (AI) student with hands-on experience in web development, data analytics, and AI-based solutions. Skilled in Python, SQL, Flask, and modern web technologies. Passionate about building scalable technology products and contributing to real-world software projects while continuously learning emerging technologies.

## EDUCATION

Bachelor of Technology (CSE - Artificial Intelligence), **Galgotias University** 2023 – 2027  
CGPA: 8.32  
Senior Secondary (12th, CBSE Board) – 75.1% 2023  
Secondary (10th, ICSE Board) – 77% 2021

## SKILLS

- Programming: Java, Python, JavaScript
- Web: HTML, CSS, React, UI/UX
- Backend: Node.js, PHP, Flask
- Data Analytics: Pandas, NumPy
- Databases: MySQL
- APIs: REST APIs, Backend Integration
- Tools: MS Excel, Figma
- Core: Data Structures & Algorithms (DSA), Problem Solving, Team Collaboration

## INTERNSHIP

**Web Developer Intern @ Codevirus Security Pvt. Ltd.** Jan 2026 – Mar 2026

- Developed a Learning Management System (LMS) using PHP, MySQL, HTML, CSS, and JavaScript with features like notes upload and access.
- Designed and improved UI/UX for smooth navigation and better user experience.
- Built modules for live classes and contributed to CRM with employee login and attendance tracking.
- Awarded a Letter of Recommendation for performance and contribution.

**Junior Developer Intern @ YatriYum** Mar 2026 – Present

- Engineered a responsive frontend landing page using React, improving user experience across multiple devices and enhancing UI performance.
- Optimized UI/UX components, reducing page load time and improving navigation efficiency.
- Integrated Cloudinary for image upload and storage, streamlining media handling in the backend.
- Built backend functionalities to efficiently manage data and media processing..

## PROJECTS

**AI Resume Screening System [React , Python]** ( Feb 2026)  
[\[GitHub\]](#)

- Built a system to upload and analyze resumes (PDF/DOCX) using Python.
- Extracted text from resumes and processed it using NLP techniques.
- Implemented resume classification and candidate shortlisting based on job roles.
- Integrated Flask for backend and MySQL for storing user and resume data.

**Coders of Delhi – JSON Data Viewer [Python]** (March 2025)  
[\[GitHub\]](#)

- Built a Python-based tool to parse and visualize JSON data, improving data readability and reducing manual analysis effort..
- Converted complex JSON structures into a human-readable form for easy understanding.
- Implemented file handling and data parsing using core Python concepts.

## CERTIFICATIONS

- Python (Advanced & Expert), Java (Basics) – HackerRank

## ACHIEVEMENTS

- Solved 550+ problems on LeetCode strengthening DSA and problem-solving skills. [leetcode.com/u/aman\\_k9571](https://leetcode.com/u/aman_k9571)
- Qualified Smart India Hackathon 2025 Pre-Qualifier and selected in XLR8 AMPLIFIER'25 hackathon.
